## Why Recycle Carpet?

More than 300 million pounds of carpet is discarded in California every year. Landfilled carpet won't break down for centuries. But there is a better way: recycling.

Recycling carpet saves natural resources, conserves landfill space, and reduces dependency on fossil fuels.

Old carpet can be recycled and made into useful new products, like

insulation, dimensional lumber, carpet cushion/underlayment and new carpet.

Since 2011, recyclers have collected over one billion pounds of carpet in the state. CARE works to create market-based solutions to increase carpet recycling and divert carpet from landfill.

Thank you for recycling!

## ¿Por qué reciclar las alfombras?

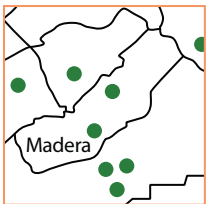

*Cada año en vertederos de California se entierran más de 300 millones de libras de alfombras, donde permanecen por siglos sin descomponerse. Pero hay una mejor manera: reciclar.*

*Reciclar alfombras ahorra recursos naturales, conserva espacio en los vertederos y reduce la dependencia de combustibles fósiles.*

*Las alfombras viejas pueden ser recicladas y convertidas en nuevos productos útiles, como aislamiento, madera dimensional, almohadilla para alfombras y alfombra nueva.*

*Desde 2011, los recicladores han recolectado más de mil millones de libras de alfombras en el estado.*

*¡Trabajando juntos podemos hacer más!*
